

# Contribution to experimental facilities

Trust & Identity  
requirements for experimental  
facilities

Experimental facilities  
Current provision

Integration – does it all work together?  
Scale – does it work at internet scale?  
Threats – is it robust to attack?

## Contribution to experimental facilities

- Experimental Faculties – current provision
  - Someone from experimental facilities
- Trust and Identity – requirements from experimental facilities
  - Some one presenting aggregated scenarios??
